Downloads

In this section you find all referenced software downloads and configuration profiles that are needed to operate the VP75.

Slicing Software

The Open Source slicing engine *Slic3rPE* (Slic3r Prusa Edition) is recommended to be used with the VP75 Additive Manufacturing System. On https://github.com/prusa3d/Slic3r the project is maintained by PRUSA RESEARCH released as packages for all major platforms for download:

Slic3r Profile Bundle

For Slic3r to be used with the VP75, the software has to be configured for the specific machine parameters. These parameters are provided by *Kühling&Kühling* as a ready to install profile bundle. Make sure to select the matching profile bundle for your specific hardware revision:

VP75 Rev. 1.x.x
